HOW TO USE NATIONAL JOURNAL INDEXES

Material in *National Journal* is indexed in eight ways:

National Journal articles 3

This list is designed to provide quick access to reports and focus articles which have appeared in *National Journal* Volume 8, July-December 1976 and Volume 9, January-March 1977.

Personal names 6

including public officials and private individuals whose activities are referred to in *National Journal*. Excluded from this index are deceased persons.

Private organizations 19

including associations, law firms, lobby groups, trade organizations, corporations and universities whose activities are covered by *National Journal*. Divisions of private organizations are listed under the organization. All organizations are listed under their complete, official names. If the official name begins with initials or a first name rather than the surname, the organization is filed alphabetically under the initial or first name as follows:

E. C. Knight Co. files with the E's
Arthur D. Little Co. files with the A's

Congress 24

including congressional committees and subcommittees whose activities are covered by *National Journal*. Committees are filed under their substantive names; for example:

Senate Committee on Foreign Relations is filed as Foreign Relations Committee, Senate

Subcommittees are listed under the committee.

Government organizations 27

including federal departments, independent agencies, commissions, quasi-governmental agencies, state departments and international organizations whose activities are covered by *National Journal*. Government organizations are filed under their substantive names; for example:

Office of Education is filed as Education Office

Bureau of Labor Statistics is filed as Labor Statistics Bureau

Advisory Commission on Intergovernmental Relations is filed as Intergovernmental Relations Advisory Commission.

Subdivisions of government units are listed under the main entity. Proposed government units are in *italic type*.

Geographic areas 34

including states, cities, congressional districts, foreign countries and other geographic place names. Sections of the Geographic Index are the United States and Foreign Countries.

Subjects 37

This structured index is arranged in broad subject categories which appear in **bold face type**. Each main category has subordinate categories; for example, under **communications** are subordinate categories magazines, newspapers, telephone; under **transportation** are aviation, highways, railroads. Many cross references are included in the subject index to refer the user to the appropriate main category. Example: *aviation see transportation; television see communications*.

Policy Forum 41

This index is arranged in broad subject categories which appear in **bold face type**. Each main category is followed by a specific topic and then a reference to the individual or organization which made the statement in *National Journal's* POLICY FORUM.

When persons, places or organizations are mentioned in *National Journal* more than seven times, *subject headings* are used under the name.

Major studies or analyses are indicated by page numbers in **bold face type**.

Entries are *alphabetized* letter by letter. Example:

American Road Builders
Americans for Democratic Action
American Society of Newspaper Editors

Aetna Life and Casualty
AFL-CIO
Air Transport Assn. of America.

If material cannot be located through use of these indexes, subscribers are invited to call *National Journal* library for assistance, 202-857-1413.
